Unleashing Executive & Organizational Potential

I appreciate your willingness to describe your experience in the executive and leadership training that I provided to you and your organization. The information will be included in a marketing booklet that I will be using to expand my global footprint. My sincere gratitude for your support.

Herb Stevenson

Please describe your experience in the space provided

Herb has worked with me and other members of our executive team for over 10 years. During that time, he has been able to develop trusting relationships with each of our team members. Herb's approach has allowed him to gain insights into each person as well as the dynamics of the group. This combination has allowed Herb to help us reframe our conflicts and redirect our energy into working together

What did you find most effective from this coaching and training that supported your leadership development?

Herb speaks clearly about what he sees and brings up matters that are apparent, and at times some that are not apparent to us. By speaking about matters that teams sometimes bury, he shines a light on the root causes of repeating patterns in the organization. While the perspective is at times - jarring - if you are open, willing to let go of preconceived notions, then so much is possible.

How has the coaching and training led to be a more effective leader

Working with Herb has helped me become clear about areas of my leadership approach that need to change. When I became open to the sense that my choices and actions were both a barrier and an opportunity, Herb was able to continue supporting me in making durable changes. The approach has helped me at home and at work.
